Bicycle security marking may deter thieves, not only that, it also makes the bike more identifiable and therefore easier to reunite owners with their bikes in the event they are stolen. Please feel free to pop in and see us on the date shown above.

Please note any bikes requiring marking must be reasonably clean, the process will not work through layered dirt and grime.

It is worth noting that due to operational demand the timings of the event could change without warning, however, we will do our best to be there between the given times.
