

Date:

Dear Sir/Madam

New Thanet Local Plan - Scoping Consultation - 24 August - 9 October 2026

The Council is beginning work on a new Local Plan for Thanet under the government's new planning system, and is keen to hear from people about:

- what they think should be included in the new Plan, including what the aims and objectives of the Plan should be; and the outcomes the council should be seeking through the Plan; and
- how they would like to be consulted and involved in its preparation.

The Council would also like to hear about:

- Any sites that might be available to help meet the development needs (such as housing or employment) of the district; and
- Any heritage assets that people think should be considered for inclusion in a “local heritage assets” list.

Specific information will be required to support such submissions.

Please visit our [consultation portal](#) for more information, make comments or submit sites. Please make sure we receive your comments when the consultation closes at **5pm on 9 October 2026.**

Yours faithfully

Adrian Verrall (Strategic Planning Manager)
